

Message Manager Release Notes 7/10/2014

CUSTOMER FACING ITEMS

Admin Tools > Client Information - new fields being displayed on Common Fields tab: Created By, Date Last Changed and Changed By.

CUE Connect > Cue Transactions - Added label Single/Dual below the number in the frequency column.

CUE Connect > Cue Configuration - Removed IT Only fields that included passwords. Added/changed labeling on multiple fields.

Group Edit - was not populating Originators correctly when changing to another Group. This has been corrected.

Help – has been updated for My Messages, Send Message, Address Book, Group Edit, Quick Message Edit, Status, Status Edit, Client Info, Preferences, Quick Message Send, Group Send, Change Password, CUE Connection Status and Detail, Cue Messages and Detail, Cue Configuration and Detail, CUE Transactions and Detail, Cue Connection Status and Detail.

My Messages > Message Detail popup - Added new label "Sent From Page:" It will only show for messages that have tracked this information since the 6/19/2014 release.

Send Message and Send Message Basic - was seeing an error come up in the server log. Found it was when you were trying to sort on Email Address on the small Addresses grid. This has been corrected.

Send Messages > The My Messages grid at bottom has been updated to show the shield graphic if it's a secure thread and hide @intellimsg.net.

Status Edit - Added Created By, Created Date, Last Changed By and Last Changed Date to screen.

Address Book Search has added View By Admin Only logic and will now show secure addresses (if the account has been enabled for secure addresses). Message Manager, Operator and AMS IT credentials will be able to view this information. Basic or My Account credentials cannot.
